Boardroom

1:10 p.m. – 2:10 p.m. **BREAKOUT SESSIONS**

Ballroom A, B

RESHAPING THE IMAGE OF CTE: WHAT ARE YOU DOING?

Ms. Marie Bowers – Director of CTE, Eastern Westmoreland CTC

Mr. Kevin Rice – Assistance Director of CTE, Central Westmoreland CTC

Negative stereotypes and stigma related to CTE is well documented and frequently discussed. Some feel this hampers advancing our mission. Attention to this issue usually centers on the source of this barrier, rather than ways to overcome it. This session features ideas and strategies to advance the discussion beyond why the stigma exists, to what can be done about it. Leaders from Central and Eastern Westmoreland County CTCs review their current community awareness efforts. Participants will share their strategies and experiences as well. A pool of best practices will be created that participants can put into practice.

Ballroom C WHAT'S THE FUSS? SUCCESSFUL PRACTICES FOR IMPLEMENTING ACADEMIC INTEGRATION

Ms. Wendy Barrett – English Instructor, Lebanon County CTC
 Ms. Karen Gulotta – Special Populations Coordinator, Lebanon County CTC
 Mr. Kerry Hartman – Math Instructor, Lebanon County CTC
 Mr. Wayne Hagy – Commercial Art and Design Instructor, Lebanon CTC

Do you have faculty members that continue to question why they need to incorporate literacy and numeracy into their program? The Technical Assistance Team at the Lebanon County CTC has found easy ways to get teachers on board for using techniques to improve student success.

Alumni Lounge HIRE YOUR WAY TO SCHOOL SUCCESS

Dr. Cynthia Pellock – Associate Professor, Penn State University

Hiring qualified teachers and financial management are important to your school's success. Supporting a new teacher to the Vocational Instructional II certificate may cost your school up to \$40,000 per instructor—a significant expense even in good budget years. This session will offer you information about what you can do to reduce your teacher development costs and improve new teacher quality. Build the supply of teachers who are technically qualified and academically capable to integrate instruction, have teaching experience, and are certified to teach in their CIP areas on the day they walk in your door.

Faculty Staff Club BLENDED LEARNING FOR 21ST CENTURY HEALTHCARE CAREERS

Mr. John Dohoney – Account Manager, Allegheny Educational Systems, Inc.
 Mr. Ned Sheerin – VP Sales and Marketing, Applied Educational Systems, Inc.

The challenges facing workforce education programs today are especially challenging in healthcare education. Instructors struggle to find time for individualized instruction on critical hands-on skills and procedures for students with evermore diverse learning styles and abilities. Come and experience HealthCenter21 – the online healthcare curriculum resource that delivers regularly updated, engaging multimedia content with automated, continuous assessment. The online platform allows instructors to create a blended learning environment that is individualized for each student. Instructors can be more productive, and graduates can enjoy success as healthcare professionals.

2:20 p.m. – 3:20 p.m. BREAKOUT SESSIONS**Ballroom A, B PERKINS HELP FOR NEW DIRECTORS**

Ms. Cynthia Gross – Acting Perkins Coordinator, Bureau of Career and Technical Education, PA Department of Education
 Mr. Charles Sabulski – Perkins Western Region Advisor, Bureau of Career and Technical Education, PA Department of Education

This presentation is designed to acquaint new directors with the Perkins local plan process. Topics covered will include Egrants and Perkins Grant applications, EDGAR equipment inventories, and proper documentation/procedures concerning Perkins grants. The Perkins deadline for submission is August 31st. New directors may want to attend this session before submitting their plans. Other directors with questions are welcome to attend.

Ballroom C**INTEGRATION LEARNING PROJECTS MODEL**

Mr. Brian Williams – Executive Director, Bethlehem AVTS

The Integrated Learning Projects model was developed to address academic deficiencies in students who attend our school. In the first year of implementation, this approach has served several students well, enabling them to recover academic credits through completing a rigorous integrated project while enrolled in the CTE Program. The integrated project encompasses the academic standards required to recover lost academic credit. The partnership between the sending high schools and BAVTS enables formal agreement as to the rigor and quality of the project(s) and to the worthiness of academic credit while at the same time permitting hours toward program completion at the CTC. Thus far the projects have served students with IEPs, but we are planning projects for all students who struggle academically. We plan to design generic integrated projects for each CTE program area that can be modified to meet the specific needs of each student. We now “recover” credit for seniors, but hope to address early on the patterns of younger students who struggle academically and put the projects into place as a preventive measure to help the students remain on a successful pathway toward program completion and ultimately graduation.

Alumni Lounge**A SIMPLE TECHNOLOGY ANSWER TO ORGANIZING**

Ms. Irene Lynch – Project Coordinator, Stratix Systems

Ms. Gina Pardovich – Assistant Director, Northern Montgomery County Technical Career Center

Stratix Systems provided NMTCC with an information management solution using Microsoft SharePoint in our administrative offices. Shortly after, NMTCC staff discovered how this can assist them with Chapter 339 Approved Program Evaluation Review. SharePoint was set up to keep the program standards, organized in a central location, and easily accessible by the professional staff and future auditors. Additionally, teachers will have access to organize and update program data and curriculum. We will present an overview of the project and a live demonstration of Microsoft SharePoint. Our goal is to inform the audience how technologies like SharePoint can be utilized, customized, and adopted in almost any professional environment, including education.

2:20 p.m. – 3:20 p.m. **BREAKOUT SESSION**

Faculty Staff Club**WHAT'S NEW AT NOCTI**

Dr. John Foster – President/CEO, NOCTI

Ms. Heidi Speese – Senior Project Coordinator, NOCTI

NOCTI assessments have been used as part of Pennsylvania Student Occupational Competency Testing program for a number of years. Pennsylvania's program is continually referenced as a “model of success.” This session will provide information on “What's New at NOCTI” with a focus on new products and services, many of which were implemented with Pennsylvania's assistance. Included in the discussion will be new and revised tests, streamlined Client Service Center features, Countdown Kits, and an overview of NOCTI's data upload tool.

3:30 p.m. – 4:30 p.m. **BREAKOUT SESSIONS**

Ballroom A, B**THROWING A LIFE PRESERVER TO NEW CTC INSTRUCTORS**

Ms. Diane Franklin – Principal, Cumberland Perry AVTS
Mr. Justin Bruhn – Assistant Principal, Cumberland Perry AVTS
Mr. Frank Flamini – Director of Student Services, Cumberland Perry AVTS

To assist and support new CTC instructors, CPAVTS implemented a program that provided a student teaching-like experience, by working directly in the classroom with new instructors for 40 days. All aspects of teaching were covered including classroom organization, discipline, time management, grading, lesson planning and teaching. The impact and results were overwhelmingly positive for all. This professional development initiative, using Perkins funds, has produced happy and productive first-time teachers. It has gone a long way to eliminate a lost first year for students who had to endure the struggles of a new instructor.

Ballroom C**INDUSTRY PARTNERSHIPS PART III: THE CREATION OF FIRST EVER BIO-DIESEL MOTORCYCLE CHOPPER BUILT BY LANCASTER CTC STUDENTS AND STAFF**

Mr. Matthew Mann – Principal, Lancaster County CTC – Willow Street
Mr. Sidney Marland – Consultant, Worley/Obetz

The Lancaster County Career & Technology Center (LCCTC) has completed Phase III of an industry partnership with local fuel company Worley/Obetz, and sister company, Amerigreen. The LCCTC presented two years ago on the alternative fuel buggies that were created to promote the use of alternative fuel sources. Last year they presented a bio-fuel processor that was built by the Auto Technology program to convert the used cooking oil used in the Culinary Arts program into a usable fuel. This year, the LCCTC and their industry partners raised the bar to a whole new level. They have created the first ever bio-diesel chopper-style motorcycle completely built by CTE students and staff. You must come see this one of kind machine that is a true representation of the level of quality of CTE students.

Alumni Lounge**CAREERSAFE “ONLINE” – AN OSHA TRAINING/CERTIFICATION PROGRAM**

Mr. Patrick Robinson – Outreach Trainer, CareerSafe Online

The CareerSafe Online presentation is designed to illustrate the need for youth safety programs by pointing out the current astonishing youth injury statistics, the percentage of youth who are currently employed, and the level of safety training young workers are currently receiving through classroom instruction. Programs, such as CareerSafe Online and the CareerSafe Youth Safety Initiative, strive to provide safety training for students nationwide per OSHA standards and regulations. CareerSafe seeks to make a difference in on-the-job youth safety.

Faculty Staff Club**CREATING PENN COLLEGE ONLINE ARTICULATION AGREEMENTS**

Ms. Elizabeth Biddle – K-12 Project Manager, Outreach for K-12, Pennsylvania College of Technology

Dr. Jeannette Carter – Director, Outreach for K-12, Pennsylvania College of Technology

This session includes an overview of the online Penn College articulation agreement system and the process of creating and applying scope and sequence templates to CIP codes and agreements. Perkins IV guidelines require updated articulation every three years. The agreement creation and update process can be time consuming and difficult for both secondary and postsecondary. Although the initial stages require the most effort, the signature and update process is simple and quick. The system is unique and requires assistance to navigate for the first time.
