Grants:

Perkins Secondary 380 – opened now, due 8/30/2020.

Perkins Post Secondary 381 – opened now, due 8/30/2020.

PIMS

- **Collection Window: 6/8 to 7/21**

Timeframe for LEAs to officially submit their template data into PIMS. All DQE data exception errors must be received and approved. Once the data exception request has been approved, LEAs must ensure there are no other data errors other than those in the original DQE request.

LEAs must run their student data quality control reports before finalizing their submission. LEAs must make all necessary corrections identified in these reports.

- **Follow-Up, Review & Editing Window: 7/23 to 7/31**

Allows PDE personnel to review quality control checks against multiple data sources and provide feedback to LEAs regarding issues found during PDE's review of submitted data.

- **Correction Window: 8/3 to 8/12**

Allows LEAs to address submission deficiencies identified by PDE personnel during the follow-up review and editing window.

- **Accuracy Certification Statement (ACS) Due Date: 8/31**

LEAs should (1) generate and review the PIMS CTE data quality control reports available within the PIMS Reports application within the Education Portal and (2) make any required and/or needed PIMS data corrections based on these reports. Note: The PIMS CTE data quality control reports served the purpose of both informing your LEA PIMS users and/or CTE professional staff of questionable or erroneous PIMS CTE student-level data and providing supporting, detailed, aggregate, CTE enrollment statistics at the school and program-level for local verification.

PDE personnel cannot begin processing the ED Facts submission and Consolidated Annual Report (CAR) until all signed and initialed ACSs have been received by PDE.
