2018 -2019 Fall Coaching Clinics

The Coaches Clinic purpose is to bring instructional coaches together to help the struggling teacher and to share best practices; learn from each other as Career and Technology Centers (CTCs) across the state implement change, show improvement, and integration strategies across career and technical program areas. The clinics are open to all CTE Coaches interested in improving instruction and student achievement through a coaching model.

For each session, we ask that each attendee brings a best practice to share (pleased bring 30 copies of the practice to share with the group and a copy of the presentation on a flash drive). The Clinics are interactive, fun, and engaging while at the same time participants network and establish contacts and professional relationships with individuals in similar positions. Every participant will return to their school with a variety of ideas that they can use to improve instruction and student performance.

The Coaching Clinics will be held at three regional sites:

West: October 10, 2018
Forbes Road CTC
9:00 am – 2:00 pm

Central: October 1, 2018
Cumberland Perry AVTS
9:00 am – 2:00 pm

East: October 24, 2018
Lehigh CTI
9:00 am – 2:00 pm
